

Exo AST Tree :

Exercises on expressions.

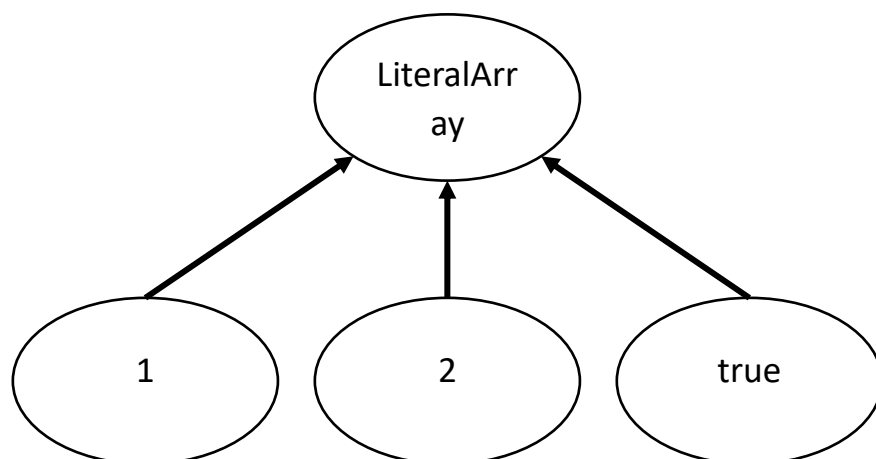

1. Draw the AST of expression true.

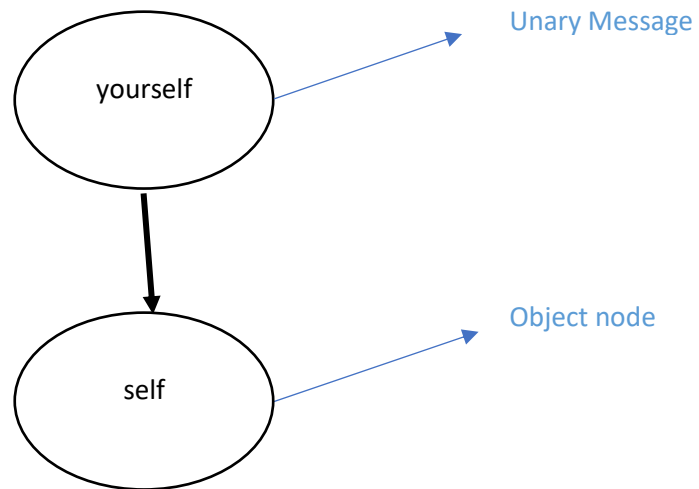

2. Draw the AST of expression 17.

3. Draw the AST of expression #( 1 2 true ).

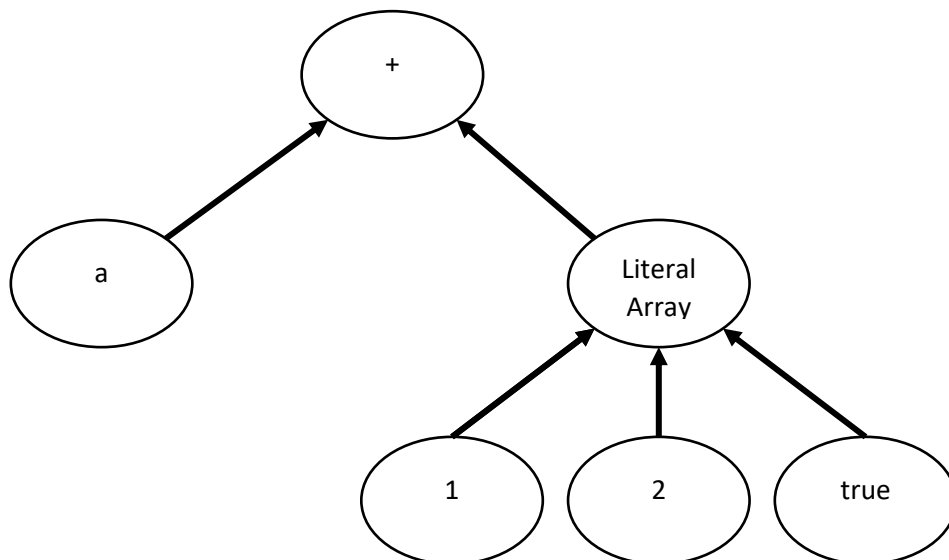

4. Draw the AST of expression self yourself.

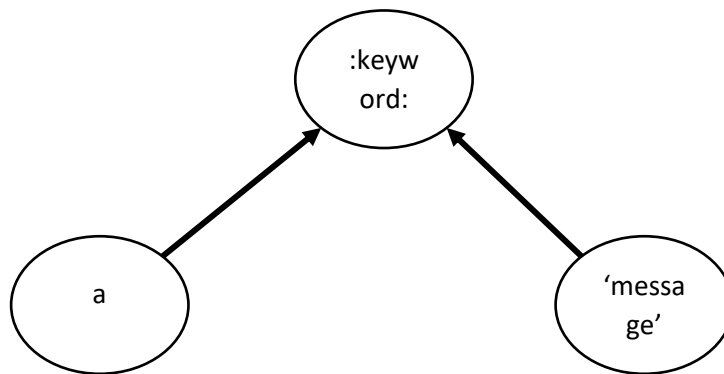

5. Draw the AST of expression a := b := 7.

6. Draw the AST of expression a + #(1 2 3).

7. Draw the AST of expression a keyword: 'message'.

8. Draw the AST of expression (a max:1) min: 17.

9. Draw the AST of expression a max: 1 (min: 17)

10. Draw the AST of expression a max:1 min: 17

11. Draw the AST of expression a asParser + b asParser parse : 'some-text' , somethingElse.

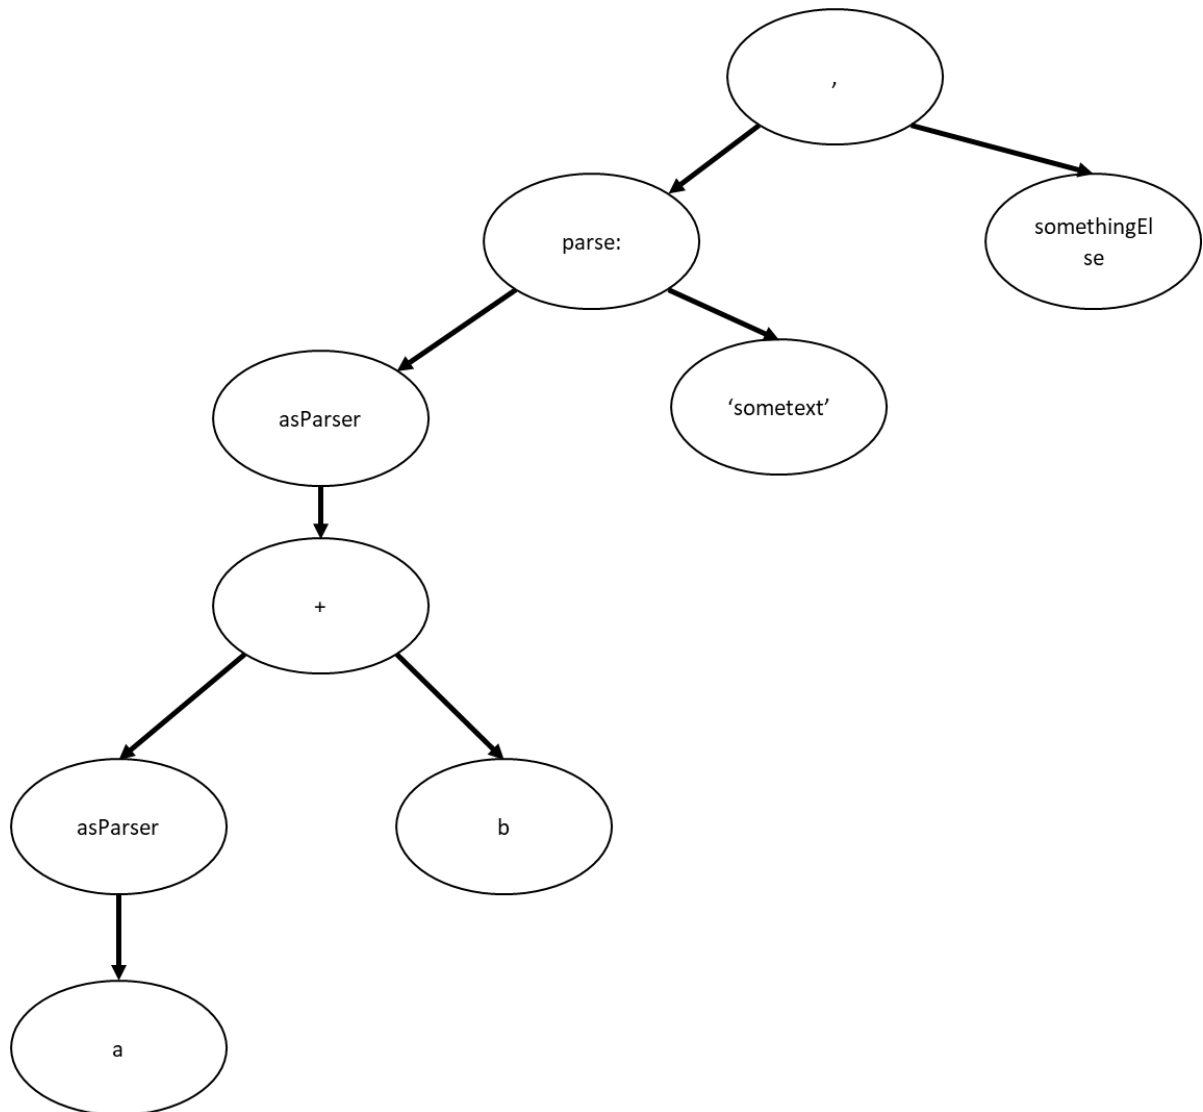

12. Draw the AST of expression ( a asParser + b asParser) parse: ('sometext' , somethingElse)

13. Draw the AST of expression ( a asParser + b asParser parse : 'sometext' ) , somethingElse.

14. Draw the AST of expression (( a asParser + b) asParser parse: 'sometext' ), somethingElse.

#### Exercises on Blocks

1. Draw the AST of block [ 1 ].

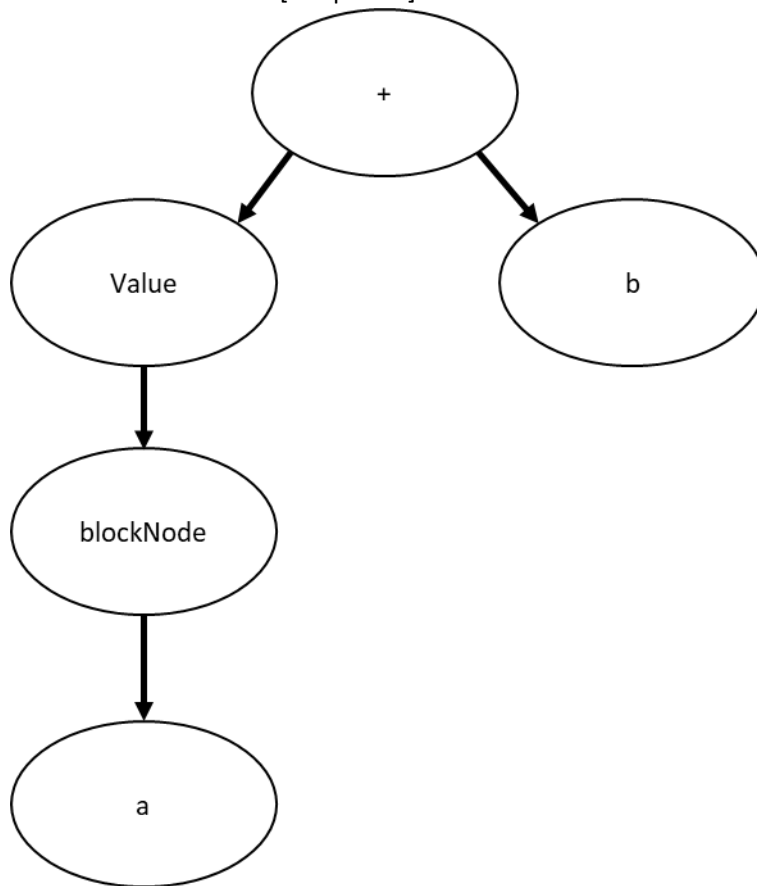

2. Draw the AST of block [ : a ].

3. Draw the AST of block [ :a | a ]

4. Draw the AST of block [ :a | a + b]

5. Draw the AST of block [ :a | a + b . 7 ]  
6. Draw the AST of block [ :a | [ b ] . 7 ].  
7. Draw the AST of block [ :a | |temp| [ ^ b ] . ^ 7 ].
